

Shape Fun!

This week we are going to learn all about shapes. Have lots of fun searching, dancing and painting with shapes.

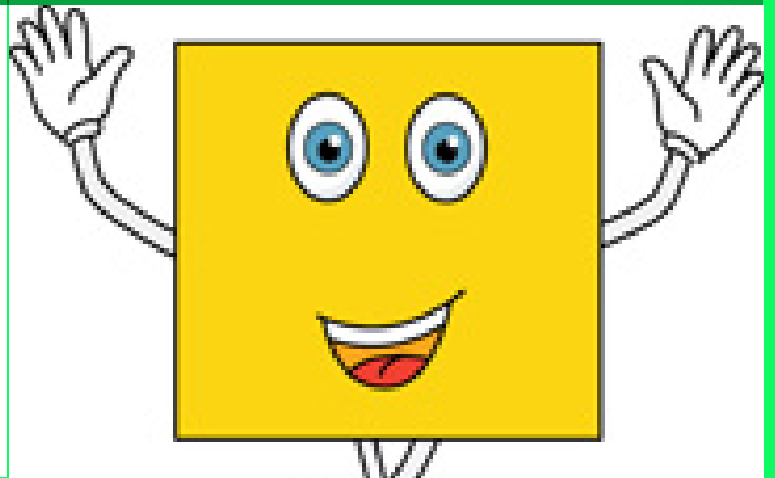

Shape Hunt

Go on a shape hunt around the house and the garden. How many squares, triangles, circles and rectangles can you find?

Dance with Shapes!

Listen to the dance with shapes song. Can you copy the moves for each of the shapes?

Shape Sorting

Can you find some objects around the house that you can draw around to get circles, squares and triangles?

You could use things like Tupperware boxes or tins to draw around.

Shape Painting

Using sponges and paint can you make a picture of shapes?

See the instruction sheet for more information.

If you go outside, please observe the guidance on social distancing to keep everyone safe, whilst also having fun!
