But when they meet, they personally find that they are not entirely the ones they claimed to be in their letters, leading to an impressive story of false identity and unexpected romance. The novel deepens the topics of identity, authenticity and communication forces. Chemistry between Misha and Romen is electrical and their relationship is intense and convincing. Douglas skillfully creates a slowly stinking romance that keeps the reader on the edge of their chairs and helps the characters find the way to each other. The characters are well developed and have disadvantages, so they are real and similar. The character of Missha and the strong Ryen Phara add their personalities depth and their personal growth throughout history is useful as a witness. Finally, I recommend this book for the same reason that you recommend other books Penelope Douglass: Her writing style is attractive and engaging, so this novel must be for fans to read fans of anxiety and passion.
